### BUSY AT WORK

It's been awhile since our last newsletter. We have been busy at work here in Thailand. We have been pouring out our love on all of the children here. We have been able to share the love that you send as well. The girls and I are very appreciative of your commitment to helping change the lives of these children. We are teaching them and equipping them to be the people that God has called them to be. We are raising up a generation that knows the Lord and that can change the atmosphere around them. We have

lessons in math, English, and equip them with the knowledge of God's Word. We show them how the love of God can change lives and it is changing theirs. Many of the children who were going down a path they had no control over have now been rescued and put on a new path. They are now able to have dreams and visions for their future. Growing up in the culture here, the children are not allowed to ask questions and they are not asked what they want their future to be, but instead they are told what their future must be and told what they should think. if the students ask questions, they are chastised. The teachers believe the students should understand the first time around. Also, the teachers do not give them the material to study, but instead the students have to find the material somehow themselves. For students who do not have access to resources, this is very hard which brings about

reasons why the students drop out of school, don't have dreams or aspirations, or sold into trafficking. With your help we have been able to help the children learn better and more than they have been able to before. Thank you for your continued partnership. You are changing lives for the better.
